

GLASGOW 2014 LTD.

GLASGOW 2014 COMMONWEALTH GAMES STRATEGY & FRAMEWORK (CGSF) STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA) CONSULTATION: CONSULTATION GUIDANCE DOCUMENT

How might the SEA and Environmental Report help you respond to the CGSF consultation?

The Environmental Report summarises the findings of the environmental assessment and provides information on environmental issues of relevance to the CGSF. The CGSF has a primarily socio-economic agenda. Whilst it will deliver a broad range of environmental benefits, many of its positive impacts will be focused on socio-economic development and regeneration issues. In contrast, the Environmental Report focuses mainly on environmental issues to help people make more environmentally informed decisions.

The Environmental Report includes information on our proposals for making the CGSF's beneficial environmental effect stronger. You may have your own ideas for making the Games' environmental benefit bigger and we would welcome your views on this matter.

Also, information in the Environmental Report on the CGSF's potential adverse environmental effects should help you to make more balanced choices about the benefits of socio-economic development and regeneration over environmental impact. Equally, you may have ideas for delivering the CGSF's socio-economic objectives with no or less environmental impact, over and above those we have already considered. Your comments and suggestions will help us to make a more sustainable plan.

How to respond to the consultation

There are two main options for responding to the consultation:

- **Option 1:** General comments and/ or personalised response
- **Option 2:** Commonwealth Games community environmental consultations

General comments and/ or personalised response

We will happily receive general and/ or personalised comments on any part of the CGSF and its environmental assessment. We will take account of all such responses received. Please send your comments to the email or postal addresses listed below. If you would like further advice on how to respond using this method, please do not hesitate to get in touch with Glasgow 2014 Commonwealth Games SEA Technical Officers – Peter Phillips (peter.phillips@glasgow.gov.uk) or Gareth Talbot (gareth.talbot@glasgow.gov.uk).

Queries and comments on the Environmental Report and CG Strategy and Framework should be sent to:

Peter Phillips: peter.phillips@glasgow.gov.uk

OR:

Community consultation events

Community consultation events will provide you with an opportunity to have your say on Games related local environmental issues and help us to prioritise the SEA recommendations. We will be holding five such events across Glasgow to reach as broad a spectrum of the public as possible. **Who should attend:**

- Interested members of the public
- Community councils

- Residents of areas affected by Games developments
- Community development groups
- Community transport groups
- Community environment groups
- Community sports, leisure and recreation groups
- Housing association representatives
- Heritage and building preservation groups

The events will provide attendees with an opportunity to highlight local environmental issues of importance to them and their communities. Comments and suggestions will help to shape the Games' environmental legacy by helping us to prioritise which SEA recommendations will be taken forward. Consultation events will be held at:

- **Tollcross Youth Centre** Tuesday 30th November 6pm – 8pm
1120 Tollcross Road 0141 763 0138
Tollcross
G32 8HE
- **Molendinar Community Hall** Thursday 2nd December 6pm – 8pm
1210 Royston Road 0141 276 1300
G33 1HE
- **Langside Community Hall** Tuesday 7th December 8pm – 9:30pm
5 Langside Avenue 0141 649 9460
G41 2QR
- **Castlemilk Community Centre** Thursday 9th December 6pm – 8pm
121 Castlemilk Drive 0141 634 2233
G45 9UG
- **Partick Burgh Hall** Tuesday 14th December 5pm – 7:30pm
3-9a Burgh Hall Street 0141 357 5399
Partick
G11 5LW
