## Breakfast Clubs in Primary Schools

## 1. Background

1.1 Glasgow City Council introduced breakfast clubs in all primary schools across the city a number of years ago. The objective was to provide children with the best possible start to the day.
1.2 Children can come into school from 8.15 am . They are able to have fruit, cereal and toast. There are at least two members of staff from Cordia. Education Services pay for the service at a total cost of $£ 2.4$ million. (tbc)
1.3 In the February 2010 budget, it was agreed that breakfast would be provided free to those children who were entitled to a free school meal. All other children would be charged 50p. The charge was introduced in August 2010.
1.4 Following the charge, a small number of written complaints were received in Education Services. Mainly from working parents who had more than one child and who earned just over the threshold for entitlement to free school meals. They felt very strongly that they were being penalised for working.

## 2. Uptake

2.1 Following the introduction of charging for breakfast, numbers taking breakfast have declined.
2.2 In October 2010, 45 primary schools have an uptake of less than 10\% of the school roll. 85 primary schools have an uptake of between 10 and 19.9\% of the school roll. 14 primary schools have an uptake of more than $20 \%$ of the school roll.
2.3 Appendix 1 contains a list of all the schools ordered by percentage uptake.

## 3. Future provision

3.1 Glasgow City Council is committed to meeting the needs of the most vulnerable and targeting resources to most need. However, the current financial position of public services means that services, such as the breakfast clubs, require to be reviewed to ensure that they are continuing to meet those aims and achieving best value.
3.2 Education Services and Cordia wish to seek the views of Parent Councils regarding the future of breakfast clubs.
3.3 There are a number of possible options - the following are not designed to be a list from which Parent Councils should choose, but rather to give an indication of the options we could consider. We would welcome Parent Councils offering alternatives.

## Option One

Discontinue breakfast provision
Possible Consequences

- Vulnerable children do not receive a breakfast
- Working parents are not able to get to work on time
- Considerable savings to Education Services
- Cordia staff lose potential earnings, many would require to be made redundant

## Option Two

Retain breakfast provision where the uptake is greater than $10 \%$ of the school roll
Possible consequences

- Some vulnerable children in schools where there is a low uptake do not receive a breakfast
- Some working parents are not able to get to work on time
- $10 \%$ of the school roll may still represent a notable number of children, for example, greater than 30
- Some savings to Education Services
- Some Cordia staff require to be redeployed, some would require to be made redundant.

## Option Three

Retain breakfast provision but increase the cost for those who pay, for example, £1 a day

Possible consequences

- The uptake may reduce further as some parents could not afford the new cost which would impact further on working parents
- Potential increase in income could be outweighed by drop in uptake

## Option Four

Put together a combination of the last two options - for example, where the uptake is less than 15 discontinue the service, introduce an increased charge but have a sliding scale dependent on the number of children (free for those entitled to free meals, $£ 1$ for first child, 50 p for second child and free for third or more child)

## Parent Councils could offer other options for consideration.

Following receipt of the views of Parent Councils, Education Services will work with Cordia to develop a paper to take to the Education, Children and Families Policy Development Committee for elected members to take a view. If necessary, a paper will also be taken to the Executive Committee of the Council.

## BREAKFAST QUESTIONNAIRE

## TO BE RETURNED TO EDUCATION SERVICES

## TO BE RETURNED BY $\mathbf{2 8}^{\text {TH }}$ FEBRUARY 2011

We would welcome the views of the Parent Council on the future provision of Breakfast Clubs. In particular, we would like to know what your preferred option would be taking into consideration the points which have been made in the above paper.

Rather than ask you to complete a questionnaire with yes and no answers, we would prefer if as a group you debated the issue and then provided us with a note of your discussion and your preferred option(s) with reasons for your choice. You may wish to consult a broader range of parents before responding.

Your response should indicate the name of your Primary School and the name and details of a contact should further information be required.

I would like to thank you in anticipation of your support.
Maureen McKenna
Executive Director of Education Services
